

Flush with the floor shower bases including surface element  
**LUX ELEMENTS®-TUB-/TUB-LINE FINISH**

Flush with the floor shower bases  
including surface element  
**LUX ELEMENTS®-TUB-/TUB-LINE FINISH**

## This combination is a sight to see

TUB-/TUB-LINE FINISH combines flush with the floor sealed shower bases made of hard foam support material with ready-to-install surface elements made of solid surface material. These sets are the perfect symbiosis of secure substrate and matching, jointless shower base covering with integrated slope. With point drainage or floor channel drain.

For all those who are looking for an all-in-one solution for the shower area and attach importance to a high-class design. Fast and easy to install, hygienic, easy to care for and durable.

## Proven substrate with new surface

With the flush with the floor LUX ELEMENTS shower base element, the **two-piece product set TUB-/TUB-LINE FINISH** offers quality that has proven itself over decades and meets all the requirements for a secure substrate. These include **sealing compliant with the DIN 18534 standard**, a **prefabricated gradient** and **sealed drainage technology**.

In addition, the shower area is completed by a **precisely fitting and jointless surface element** made of white solid surface material, which is simply glued in place. The new high-class shower is thus ready to use in no time at all.

Several sizes are offered as standard with point drainage or channel drain:

- **Point drainage TUB-FINISH with white solid surface material – TUB-FW...**  
Hard foam shower base element with built-in and sealed floor drain fitting frame and 4-sided gradient + surface element (d = 6 mm) and design grate (d = 6 mm) made of solid surface material.
- **Linear drainage TUB-LINE FINISH with white solid surface material – TUB-LINE FW...**  
Hard foam shower base element with built-in and sealed floor channel drain 70 x 750 mm and 4-sided gradient + surface element (d = 6 mm) and cover rail (d = 12 mm) made of solid surface material.

### Dimensions (for point- and linear drainage)

Shower base 900 x 900 x 30/45 mm + surface element 900 x 900 x 6 mm

Shower base 1200 x 900 x 30/45 mm + surface element 1200 x 900 x 6 mm

Shower base 1600 x 900 x 30/45 mm + surface element 1600 x 900 x 6 mm

The schematic illustration shows the  
LUX ELEMENTS TUB®-LINE-FW Q4 900

- Shower base of proven quality  
in a set with a jointless surface element
- Complete system  
with integrated 4-sided gradient
- Secure substrate  
through standard-compliant sealing
- Surface for gluing – fast assembly
- Outstanding hygiene properties – easy care
