

# Fundamental rules for the exchange of DWG model data

- Ideally we need 2D geometries as a DWG file up to version AutoCAD 2015.
- Please make sure to include or enclose all external references (XRef).
- With AutoCAD this is easiest via “export” file.
- Please also always additionally send the files in PDF format, so that the CAD files can be checked for completeness.

AutoCAD Version								
12	13	14	2000	2004	2007	2010	2013	2015
possible versions of DXF data LUX ELEMENTS → customer								
			possible versions of DXF data customer → LUX ELEMENTS					

For your information:

Processing of Solid Edge / SolidWorks files – up to version ST5 – is possible without conversion.
